Research Interests

I am a final-year Ph.D. student at the University of Illinois Urbana-Champaign. My research focuses on personalized and trustworthy large language model agents, with an emphasis on user-centric generation, long-term agentic reasoning with self-evolving memory, and LLM efficiency. I am particularly interested in how personalization and agency contribute to building self-improving, reliable, and scalable LLM systems, with applications in recommender systems, information retrieval, and broader domains.

Education

University of Illinois Urbana-Champaign

➤ *Ph.D. in Information Sciences* Champaign, USA
2021–2026 (exp.)

Advisors: Prof. Jingrui He, working with Prof. Hanghang Tong
